Robust.
Stable.
Versatile.

Cupboard and shelving systems.

KARL original.

Steel cupboards from KARL:

Professional use

in assembly and production

Robust construction

Steel cupboards and shelves from KARL stand out due to robust construction, first-class craftsmanship and clear, subtle design.

Functional unit

In connection with KARL workplace systems they form a perfect functional unit, which harmonize with every modern, technical insert work environment and highest meeting quality requirements.

Flexible

Assembly or packaging material, finished goods, files or tools - cupboard and shelf systems from KARL are versatile.

Variable

Different door variants, variably relocatable shelves and storage systems for Euronorm containers or delivery boxes offer for every storage purpose an optimal solution.

Quality

- robust construction made of first-class quality steel sheet
- high quality, resistant powder coating in light gray (RAL 7035)

Lockable

- recessed security cylinder lock with 2 keys

Height adjustable

- shelves and hanging brackets adjustable in height

ESD-compliant construction

- standard-compliant according to IEC 61340-5-1
- all metal parts conductive powder coated

The roll container and wooden cabinet range.

First class storage.

Robust construction

Cupboards and mobile containers from KARL combine a robust construction with a fine appearance.

Individual office design

The first-class craftsmanship processed systems made of wood so equally for offices as well as for technical work areas.

Arbitrarily expandable

Whether freestanding single cupboard or individually tailored wall unit - for every storage purpose and for everyone. The large variety of types offers space with different door variants and variably relocatable shelves a solution that leaves nothing to be desired.

Timeless design

Light, light gray material and the clear, reserved form fit together harmoniously into the work environment and form in connection with KARL workplace systems an optical and functional unit.

Robust surfaces

Light gray, melamine resin body coated fine chipboard (19 mm). Surface insensitive to scratches, abrasion resistant and easy to clean.

High stability

- high transverse stability due to compact design
- body completely pegged and glued
- all edges with ABS edging (2 mm)
- stable, recessed rear panel (13 mm)
- Wing doors with 270° opening hinges

Flexible height distribution

- Side walls with hole line in 32 mm grid
- Shelf support made of metal

Lockable

- Lockable espagnolette lock with rotary olive

Compensable

- Base with concealed metal height adjusters to compensate for uneven floors

ESD compliant construction

- optionally also in ESD version
- standard-compliant according to IEC 61340-5-1

Functional.
Universal.
Combinable.

Steel product range

Cupboards with double doors

- height adjustable shelves in 60 mm increments
- max. load / shelf: 80 kg

External dimensions

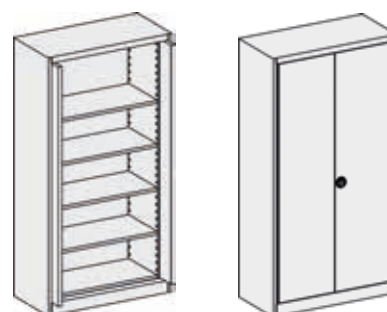

920 x 420 x 1950 mm (W x D x H)	incl. 4 shelves	71.421.70
920 x 650 x 1950 mm (W x D x H)	incl. 4 shelves	71.461.70

Additional shelf

914 x 370 mm (W x D)	76.021.70
914 x 600 mm (W x D)	76.061.70

Cupboards with swing-in doors

- doors swing into the cupboard body when opened
- height adjustable shelves in 60 mm increments
- max. load / shelf: 80 kg

External dimensions

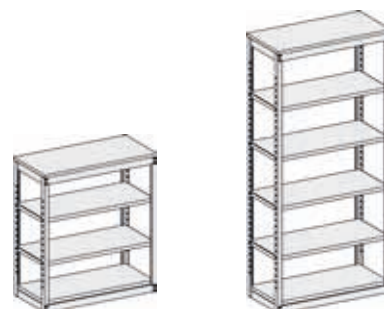

1100 x 530 x 2125 mm (W x D x H)	incl. 5 shelves	72.641.70
----------------------------------	-----------------	------------------

Additional shelf

930 x 440 mm (W x D)	76.041.70
----------------------	------------------

Shelves

- as a free-standing single shelf, row system or in block form (back to back)
- shelves made of galvanized sheet steel, height-adjustable in 50 mm increments with hanging brackets
- including bottom, lid and shelves
- delivery fully assembled
- max. load / shelf: 100 kg

Height	Width x Depth		Cover:	Sheet steel	ESD laminate
1125 mm	975 x 455 mm	incl. 2 shelves		60.424.43	60.424.34
1125 mm	975 x 700 mm	incl. 2 shelves		60.444.43	60.444.34
Height	Width x Depth		Cover:	Sheet steel	ESD laminate
2125 mm	975 x 455 mm	incl. 4 shelves		60.426.43	60.426.34
2125 mm	975 x 700 mm	incl. 4 shelves		60.446.43	60.446.34

Additional shelf

- made of galvanized sheet steel, incl. hanging bracket

for shelves

975 x 455 mm (W x D)	60.922.43
975 x 700 mm (W x D)	60.944.43

Delivery boxes

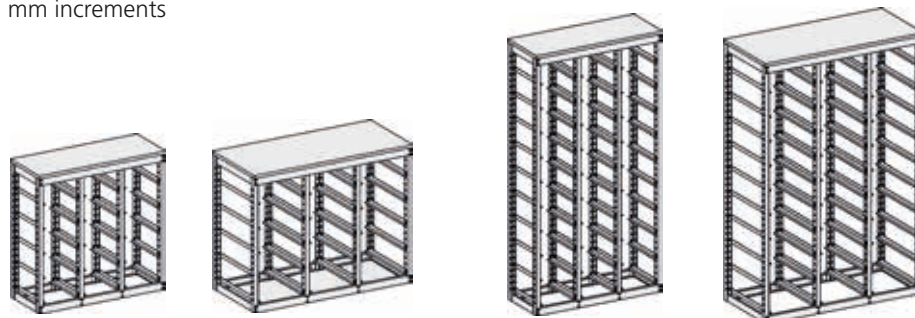

- made of galvanized sheet steel
- with label holder
- strong stacking edges for safe stacking
- optimal shape due to ribbing
- optionally with recessed grip
- minimum purchase required - on request

Type	Width	Depth	Height	Recessed grip	
B75	275 mm	450 mm	75 mm	no	62.901.96
B75	275 mm	450 mm	75 mm	yes	62.902.96
B115	452 mm	696 mm	115 mm	yes	62.903.96

Shelving system for Euro standard containers

- guidance of the Euronorm containers on galvanized suspension brackets, height adjustable in 50 mm increments

Height	Width x Depth	for Euronorm containers	Cover:	Sheet steel	ESD laminate
1125 mm	1120 x 425 mm	300 x 400 mm		66.424.43	66.424.34
1125 mm	1400 x 625 mm	300 x 400 mm, 600 x 400 mm		66.644.43	66.644.34

Height	Width x Depth		Cover:	Sheet steel	ESD laminate
2125 mm	1120 x 425 mm	300 x 400 mm		66.426.43	66.426.34
2125 mm	1400 x 625 mm	300 x 400mm, 600 x 400 mm		66.646.43	66.646.34

Mounting bracket

- galvanized surface
- with push-through protection

	Depth:	400 mm	600 mm
1 set Mounting bracket		66.901.96	66.902.96

Euronorm container

- optionally made of non-conductive low-pressure polyethylene (red) or ESD-compliant made of conductive polypropylene (black)

Height	Width x Depth	Standard	ESD
120 mm	300 x 400 mm	96.540.98	96.550.98
170 mm	300 x 400 mm	96.542.98	96.552.98
220 mm	300 x 400 mm	96.544.98	96.554.98
120 mm	600 x 400 mm	96.560.98	96.570.98
180 mm	600 x 400 mm	96.562.98	96.572.98
220 mm	600 x 400 mm	96.564.98	96.574.98
320 mm	600 x 400 mm	96.566.98	96.576.98

Rollcontainer

- robust sheet steel case with central locking
- 1 cupboard height, 2 widths
- variable drawer divisions (1 HU = 54 mm)
- clear internal dimensions: W = 330 mm respectively 520 mm, D = 450 mm
- 4/5-extensible, drawer runners with steel ball bearings
- load capacity / drawer: 30 kg
- ESD-compliant due to conductive powder coating and conductive guides, connection of all parts with contact washers
- pull-out protection: only one drawer can be opened at a time

Optional:

- full extension drawers, drawer runners with telescopic rails
- load capacity / drawer: 45 kg

Mobile drawer block F0

- 4 conductive castors (Ø 52 mm)
- 2 of them lockable
- H = 670 mm
- D = 540 mm

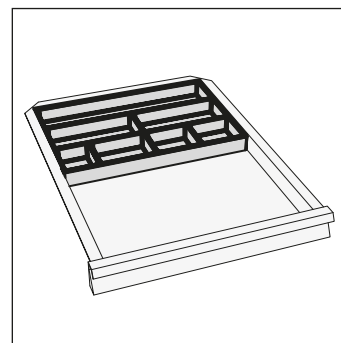

Drawer division	9 x 1 HU	2 x 1 HU 2 x 2 HU 1 x 3 HU	1 x 1 HU 4 x 2 HU	1 x 1 HU 1 x 2 HU 1 x 6 HU	3 x 3 HU
Hard laminate cover

ESD insert tray for small parts

- made of conductive plastic
- 2 trays can be used per drawer
- H = 31 mm

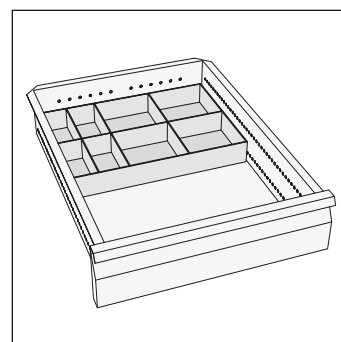

insert tray with 7 compartments for W = 418 mm	96.205.98
insert tray with 11 compartments for W = 606 mm	96.206.98

ESD small parts boxes with transport tray

- made of conductive plastic
- insert tray with removable small parts boxes
- 2 trays can be used per drawer (W = 418 mm)
- H = 42 mm

set of 4 small parts boxes 54 x 108 mm and 108 x 108 mm	96.216.98
---	------------------

Variable cross and longitudinal divisions

- adjustable in grid
- made of powder-coated sheet steel
- H = 73 mm

Cross dividers, W = 330 mm	96.225.98
Cross dividers, W = 330 mm	96.226.98

Equipment

Wardrobe rail

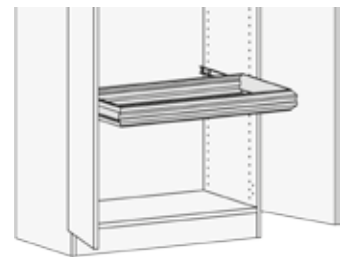

- for cupboards with depth = 650 mm
- mounted across the bottom of the shelf
- including shelf

for cupboard width	500 mm	800 mm	1000 mm	1200 mm
	705.631.00	708.631.00	710.631.00	712.631.00

Installation frame for hanging files

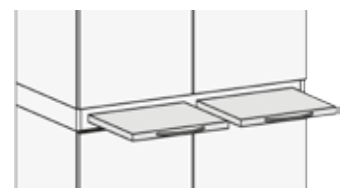

- made of powder-coated sheet steel (black)
- load capacity: 70 kg
- telescopic full extension, optionally with pull-out protection

for cupboard width	500 mm	800 mm	1000 mm	1200 mm
Depth 450 mm	705.421.00	708.421.00	710.421.00	712.421.00
Depth 650 mm	705.621.00	708.621.00	710.621.00	712.621.00

Intermediate plate with pull-out shelf

- pull-out shelf with matt nickel-plated segment handle (further handle variants optional)
- Height = 19 mm

for cupboard width	500 mm	800 mm	1000 mm	1200 mm
Depth 450 mm	705.441.00	708.441.00	710.441.00	712.441.00
Depth 650 mm	705.641.00	708.641.00	710.641.00	712.641.00

Ladder system

- conductor guide and metal brackets
- cover in cupboard design, height = 150 mm
- light metal ladder

Leadership / running meters	700.651.00
Ladder with casters	700.656.00
Ladder with suspension bracket	700.657.00

Rollcontainer

- body made of melamine resin coated fine chipboard, doweled and glued
- front panel height: 1 HU = 50 mm
- organizable steel thrust trays with 4/5 pull-out
- optionally with full extension
- 1 HU pull-out with plastic material tray
- 6 HU pull-out with frame for A4 wallets
- matt nickel-plated segment handles (further handle variants optional)
- 4 swivel castors, 2 of which can be locked
- central locking
- pull-out protection: only one drawer can be opened at a time
- stable mounting of the rollers on a metal plate
- optional ESD compliant

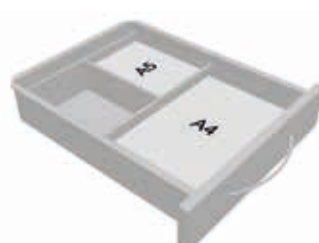

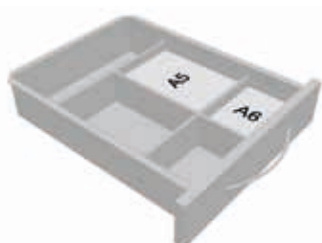

Width x Height: 435 x 602 mm

The **KARL-product range.**

Optimal solutions require a precise analysis of the work processes.
KARL defines itself as a system supplier for modern, ergonomic workplace design.

The intensive cooperation and the qualified dialogue with our customers is the basis
for a tailor-made solution for your task.

We also take production-specific requirements and spatial conditions
like the individual needs of each employee into account.

We visualize functionality, ergonomics, handling and implementation of the spatial specifications
in a three-dimensional layout.

QUADRO.

The workplace system for the highest demands.

QUADRO twin.

The classic table system with all options.

SINTRO.

The variable assembly workstation.

SINTRO pack.

The solution for packing stations.

BASIC. The economic workplace system.

Transfer systems.

FIFO shelves. The flexible material feed.

Deployment shelves.

Cupboard and shelf systems.

Measuring and testing technology.

Ergonomics.
Functionality.
 Custom design.
